PROFILE

High-performing Software Engineer proficient in all phases of the software development life-cycle. Skilled in developing strong internal and external relationships to facilitate the collaborative achievement of high-priority goals. Adept at working with Agile and Scrum methodologies to accomplish project milestones according to specific time frames. Confident in the ability to thrive in a fast-paced setting and leverage skills in JavaScript, ReactJS, Ruby, and Ruby on Rails to enable team success. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

SKILLS

- Programming languages – JavaScript, Ruby.
- Web development frameworks and libraries – React.js, Ruby on Rails.
- Front-End and Back-end Technologies – HTML5, CSS3, PostgreSQL.
- Version Control – Git, Github.
- Agile Methodologies – Scrum, Kanban.
- Soft Skills – Adaptability, Attention to Detail, Communication, Flexibility, Problem-Solving, and Teamwork.

EXPERIENCE

Junior Backend Engineer- Uamuzi, Nairobi Kenya

May 2023 - Current.

- Assisted in the development and maintenance of the backend system, implementing RESTful APIs to facilitate communication between the frontend and backend components of the application. for the Uamuzi website, and mobile application using the Ruby on Rails framework.
- Worked closely with senior developers to debug and resolve issues in the backend codebase.
- Implemented security measures to protect sensitive user data, including encryption and authentication mechanisms.
- Actively participated in Agile development processes, including sprint planning, stand-up meetings, and retrospective sessions.

EDUCATION

Software Engineering, Moringa School.

Nov 2022-April 2023.

- Completed an intensive full-stack web development boot camp covering front-end and back-end technologies, including HTML, CSS3, Tailwind CSS, JavaScript, ReactJS, Ruby, Ruby on Rails, SQL, and DBMS.
- Developed a solid foundation in front-end development, including HTML5 and CSS3, proficiency in JavaScript, and utilizing popular libraries and frameworks like ReactJS, with a focus on modern design principles and responsive web design.
- Received comprehensive training in back-end development using Ruby and Ruby on Rails, mastering the MVC architecture and RESTful API design.
- Gained practical knowledge in database management systems and SQL, enabling effective data handling and integration into web applications.
